## POLICY STATEMENT:

The Department shall establish security level designations for prisoner housing in all Correctional Facilities Administration (CFA) institutions. The placement and transfer of prisoners between CFA institutions shall be in accordance with this policy.

## RELATED POLICY:

04.04.135	Custodial Transportation of Offenders
05.01.130	Prisoner Security Classification
05.01.142	Special Alternative Incarceration Program

## POLICY:

### TRANSFER SCREENING AND AUTHORIZATION

- A. There are five security level designations for CFA facilities: Level I, Secure Level I, Level II, Level IV, and Level V. The security level is based on the level of security and staff supervision the institution provides. Level I is the least secure level; Level V is the most secure. At a minimum, institutions with Secure Level I or higher housing shall have secure perimeters (i.e., double fences, concertina wire, and perimeter detection system) and an armed alert response vehicle patrolling the perimeter.
- B. Prisoners shall be placed in the Special Alternative Incarceration (SAI) Program consistent with the standards set forth in PD 05.01.142 "Special Alternative Incarceration Program". The placement of all other prisoners shall be consistent with the standards set forth in Administrative Rule 791.4401. Prisoners shall be screened as required in PD 05.01.130 "Prisoner Security Classification" to determine their appropriate security level. A new Security Classification Screen - Review - Male Prisoners Only form (CSJ-481) or Security Classification Screen - Review - Female Prisoners Only form (CSJ-483), as appropriate, shall be prepared if required pursuant to PD 05.01.130.
- C. Transfers shall be initiated by a Security Classification Committee (SCC) except as otherwise provided in this policy. If a prisoner classified to administrative segregation is transferred, the decision whether to reduce custody shall be made by the receiving institution, except when a prisoner is being released from an in-patient psychiatric unit or is being transferred for placement in the Secure Status Outpatient Treatment Program (SSOTP) or a residential treatment program (RTP), or as otherwise approved by the CFA Deputy Director or designee. A prisoner who is being released from an in-patient psychiatric unit who is in need of placement in the SSOTP or an RTP shall be reclassified as needed to allow such placement unless otherwise approved by the CFA Deputy Director or designee. Similarly, a prisoner who is being released from an in-patient psychiatric unit who has a period of detention to serve shall have the detention period waived as needed for placement in the SSOTP or an RTP consistent with PD 03.03.105 "Prisoner Discipline" unless otherwise approved by the CFA Deputy Director or designee.
- D. A prisoner who has been specifically placed in a facility by order of the CFA Deputy Director or designee, as stated on the Transfer Order (CSJ-134), shall not be transferred from that facility unless approved by the CFA Deputy Director or designee.
- E. Except as provided in Paragraphs F and G, only the CFA Deputy Director or designee shall approve the

-----------------------------------	----------------------------	---------------------	-------------

following prisoner transfers:

1. Into or out of security Level IV or V;
  2. All increases in security level;
  3. To a security level equal to the security level of the sending facility unless the transfer is to security Level I;
  4. All transfers not meeting the eligibility criteria set forth in the attachments to this policy directive;
  5. All transfers during non-business hours.
- F. Subject to the eligibility criteria set forth in this policy, reception facility staff may transfer prisoners to security Level I through IV.
- G. A Warden of an institution with multiple security levels may authorize the transfer of a prisoner to another security level within that institution. A Warden who supervises more than one institution may authorize the transfer of a prisoner between those institutions.
- H. Staff shall ensure that appropriate files/electronic records are reviewed to identify any Special Problem Offender Notices, or any medical and mental health needs, of a transferring prisoner prior to transfer. Appropriate Bureau of Health Care Services (BHCS) staff shall notify the Warden or designee if a prisoner has a medical condition which necessitates any special travel restrictions or needs (e.g., transported lying down); the Warden or designee shall ensure this information is listed on the appropriate transportation detail. Prisoners with special health care needs shall be transferred in accordance with the BHCS Onsite Health Care Service Grid.
- I. A Transfer Order shall be used for routine transfers and emergency medical, psychiatric, and security transfers; however, a Basic Information form (CSX-104) shall be used instead at reception facilities when transferring prisoners with a new commitment. Transfer Orders shall include the purpose of transfer, program information, Special Problem Offender Notice information, Security Threat Group (STG) designation, assaultive and property risk designations, current security screening designations, current special accommodation notices or medical details, and any pertinent information as to special precautions which should be taken with that prisoner.
- J. The appropriate Record Office, Counselor, and Education files and health records shall accompany prisoners transferring to a CFA facility, except that Record Office files for prisoners transferring to the SAI Facility shall be maintained in an area at the SAI Facility designated by the Warden of the Cooper Street Correctional Facility (JCS) in accordance with PD 01.04.130 "Prisoner Commitment Files".
- K. Ordinarily, a pending major misconduct or other administrative hearing, Parole Eligibility/Lifer Review Report and COMPAS, or disciplinary time/good time credit review is to be completed prior to a prisoner's transfer. If this is not possible, the sending institution shall immediately notify the receiving institution of the need to conduct the hearing or complete the report or COMPAS, or review and the appropriate documents immediately sent to the receiving institution. Receiving staff shall ensure the major misconduct hearing is scheduled, or the administrative hearing, Parole Eligibility/Lifer Review Report and COMPAS, or disciplinary time/good time credit review is completed, in a timely manner.
- L. A prisoner scheduled for a Parole and Commutation Board interview or parole violation hearing shall be transferred only if the transfer is unavoidable and is approved by the CFA Deputy Director or designee. The Administrator of the Office of the Parole and Commutation Board shall ensure that Wardens or their designees are provided notice of interviews and hearings scheduled at their respective institutions; the sending staff shall notify the Office of the Parole and Commutation Board as soon as it is known that the prisoner must be transferred.

-----------------------------------	----------------------------	---------------------	-------------

- M. Sending staff shall notify receiving staff in advance of impending prisoner transfers, whether of a routine, forced feed, or emergency nature. Transfer information shall include the number of transferring prisoners, expected time of arrival, identity of prisoners requiring segregation placement or special handling for security, court appearance or medical reasons, and anticipated logistical problems such as missing property or records.
- N. Receiving staff shall notify the CFA Deputy Director or designee in writing of transfers received in violation of this policy.

#### MICHIGAN PRISONER REENTRY INITIATIVE (MPRI) IN-REACH FACILITIES

- O. MPRI in-reach facilities offer specialized programming, assessment, and transition services to assist prisoners in their successful transition into the community.
- P. Prisoners who are granted a parole contingent upon completion of MPRI in-reach services, and prisoners who have been determined to need in-reach services prior to discharge, shall be transferred to the in-reach facility servicing the county to which the prisoner will parole or discharge, as identified in Attachment G of this policy, unless the CFA Deputy Director or designee determines that the prisoner cannot be appropriately placed at that facility. If the prisoner is subsequently denied parole, the Warden or designee may discontinue providing in-reach services to the prisoner; in such cases, the Warden or designee shall ensure that the CFA Classification Director is notified so that the prisoner may be transferred to another facility, if appropriate.

#### PSYCHIATRIC UNITS

- Q. For purposes of this policy, a psychiatric unit is defined as an inpatient psychiatric unit, a Crisis Stabilization Program (CSP), an SSOTP, or an RTP. Institutions with psychiatric services are identified in the attachments to this policy. Institutions with outpatient mental health teams are not considered psychiatric units.
- R. In-patient mental health services are provided at the Maxey/Woodland Center Correction Facility (WCC) and the Women's Huron Valley Correctional Facility (WHV) for prisoners identified as suffering from serious mental illness/severe mental disorders. Evaluations to determine if a prisoner is in need of psychiatric services at WCC also are provided in accordance with PD 04.06.183 "Voluntary and Involuntary Treatment of Mentally Ill Prisoners".
- S. A Request for Prisoner Transfer for Health Reasons (CHX-165) shall be completed for all transfers into any psychiatric unit. Staff also shall complete a Transfer Order which shall include the information discussed in Paragraphs H and I of this policy and the name of the treatment team member or, for WCC, the psychiatrist or designee authorizing the transfer. All transfers into psychiatric units for evaluation also require the approval of the CFA Deputy Director or designee.
- T. Prisoner property shall be sent with a prisoner who has been transferred to a psychiatric unit for evaluation. If the prisoner is admitted, s/he shall be managed consistent with his/her treatment plan, regardless of security classification. If the prisoner is not admitted, staff shall complete a Transfer Order and the prisoner shall be returned to either the sending institution or another appropriate institution within three business days. All other prisoners transferring from a psychiatric unit shall be transferred within five business days after receipt of an approved Transfer Order, except if the transfer is to another psychiatric unit.

#### SPECIAL PROBLEM OFFENDER NOTICE

- U. Except if separated by the security perimeter of the institution (e.g., placement in a dormitory), a prisoner identified on a Special Problem Offender Notice form (CAJ-544) shall not be housed in the general population of the same institution as another prisoner identified on the form unless prior approval is received from the CFA Deputy Director or designee. This restriction does not apply at a

DOCUMENT TYPE POLICY DIRECTIVE	EFFECTIVE DATE 03/08/10	NUMBER 05.01.140	PAGE 4 OF 6
-----------------------------------	----------------------------	---------------------	-------------

reception facility and at WHV; however, necessary precautions shall be taken to keep the prisoners separate, including expediting transfer processing.

- V. A prisoner identified on a Special Problem Offender Notice form shall not be housed in a non-reception facility in which an immediate family member identified on the form is employed without prior approval of the CFA Deputy Director or designee. Requests for such approval shall be submitted by the Warden requesting the placement with supporting rationale as to why such placement would be appropriate.

#### HOUSING FOR PRISONERS WITH PHYSICAL DISABILITIES

- W. Due to the unique needs of prisoners who are vision or hearing impaired, use wheelchairs, or have other physical disabilities that require barrier-free access to housing and other services, care must be taken to ensure that these prisoners are not placed in institutions that are unable to meet their needs. Institution staff shall refer to the BHCS Onsite Health Care Services Grid to determine where the prisoner's needs can be met at the appropriate custody level and indicate the prisoner's needs on the Transfer Order. If BHCS initiates the transfer, BHCS staff shall complete the Request for Prisoner Transfer for Health Reasons form.
- X. Except at the Lakeland Correctional Facility or in a segregation unit, prisoners who are placed in barrier-free housing must be completely independent in activities of daily living (e.g., feeding, bathing, transferring to the bathroom). However, a prisoner who requires assistance for transport only (e.g., to be wheeled to and from meals, assignment, recreation activities) may be placed in barrier-free housing. A prisoner helper shall be assigned to the prisoner. The prisoner helper shall assist in the transport of the prisoner only; the prisoner helper shall not provide personal care.
- Y. If staff have difficulty in placing a prisoner with a disability, the CFA Deputy Director or designee shall be contacted for assistance.

#### HOLMES YOUTHFUL TRAINEE ACT

- Z. All offenders who are committed under the Holmes Youthful Trainee Act shall be housed at the Thumb Correctional Facility (TCF) or WHV as set forth in the attachments to this policy unless specific approval for alternate placement is obtained in advance from the CFA Deputy Director or designee.

#### YOUTHFUL PRISONERS

- AA. All prisoners who are under 17 years of age shall be housed in specialized areas at TCF or, to the extent practicable, WHV unless the prisoner requires residential psychiatric or medical care, is approved for placement in an RTP, or specific approval for alternate placement is obtained from the CFA Deputy Director or designee.
- BB. In addition to approval from the CFA Deputy Director or designee, Warden or designee approval is required if alternative placement for a youthful prisoner is needed for either of the following reasons:
  1. The prisoner poses an undue risk of harm to others within the unit (e.g., high assaultive risk; SPON).
  2. A Qualified Mental Health Professional or Qualified Health Professional has documented that the prisoner would benefit from other placement.

In such cases, a written statement providing the specific reasons for the alternative placement and a case-management plan specifying what behavior or condition needs to be modified before the prisoner may be eligible to return to the unit shall be submitted to the Warden or designee for approval. Each case for which the CFA Deputy Director or designee approves alternative placement shall be reviewed with the prisoner at least quarterly by SCC to determine whether the prisoner should be returned to the youthful prisoner housing at TCF or WHV; if the prisoner is in segregation, placement also shall be

DOCUMENT TYPE POLICY DIRECTIVE	EFFECTIVE DATE 03/08/10	NUMBER 05.01.140	PAGE 5 OF 6
-----------------------------------	----------------------------	---------------------	-------------

reviewed in accordance with PD 04.05.120 "Segregation Standards".

- CC. To the extent practicable, youthful offenders shall have no more than incidental sight or sound contact with prisoners 17 years of age or older in living, program, dining, or other common areas of those institutions. Any other sight or sound contact with prisoners 17 years of age or older shall be minimized, brief, and in conformance with Department policy.

#### OTHER CONSIDERATIONS

- DD. A transferred prisoner shall be screened within 24 hours of arrival at the receiving facility to identify any history of sexually aggressive behavior and to assess the prisoner's risk of sexual victimization at that facility due to his/her age, physical stature, history, or physical or mental disabilities. This shall be documented in writing and considered when making housing and bed assignments at that facility. A prisoner who staff believe is likely to be preyed upon by other prisoners or is likely to be sexually aggressive shall not be placed in a multiple occupancy setting but shall be housed individually in a room/cell which is capable of being closely monitored by staff.
- EE. A prisoner whose management or confinement level is Level IV or V as indicated on the most recent Security Classification Screen form shall not be placed in the Richard A. Handlon Correctional Facility (MTU). This does not apply to prisoners in need of placement in an RTP, or as otherwise specifically approved by the CFA Deputy Director.
- FF. Consistent with requirements set forth in PD 04.04.113 "Security Threat Groups", a prisoner designated as a Security Threat Group member shall not be placed in an open dormitory or bay setting.
- GG. Consistent with requirements set forth in PD 05.01.150 "Sexual Predator Designations", a prisoner currently designated as a sexual predator shall not be placed in a double-bunked cell or room.
- HH. Information about a prisoner's sexual orientation that is unrelated to the prisoner's behavior shall not be used by staff for any purpose, including placement and transfer decisions. However, any prisoner housed in a multiple occupancy setting who is found guilty of major misconduct for engaging in sexual activity with another prisoner shall be referred to SCC for review of his/her placement. If it is determined that the prisoner requires single occupancy housing, that housing shall be provided only in a security level that is the same or higher than that which the prisoner is currently housed.
- II. Subject to Paragraph JJ, male prisoners in institutions with multiple security levels shall not be allowed to have contact with prisoners of a different security level at that institution except as follows, unless otherwise approved by the CFA Deputy Director:
1. To participate in academic or career and technical (i.e., "vocational") education programming;
  2. To receive health care services, including mental health and psychological services;
  3. To participate in meetings of the Warden's Forum, the Prisoner Benefit Fund, or the Store Committee;
  4. To give or receive legal assistance in the Legal Writer Program;
  5. For food service, maintenance, or other work assignments held by prisoners at security Level I or II who provide essential services at the institution, as determined by the Warden;
  6. To complete group programming (e.g., "anger management") in which the prisoner was participating prior to a change in his custody level, if approved by the Warden.
- JJ. Mixing security levels at WHV, and for the purposes outlined in Paragraph II for male prisoners, shall be permitted only if the Warden determines that the service or function cannot be adequately maintained

-----------------------------------	----------------------------	---------------------	-------------

without such contact. In all cases where mixing of security levels is allowed, the Warden shall ensure that appropriate supervision is provided.

#### ATTACHMENTS

KK. This policy includes the following attachments, which identify the prisoner placement criteria for reception facilities and each security level at each CFA institution:

1. Attachment A - Reception Facilities
2. Attachment B - Level V
3. Attachment C - Level IV
4. Attachment D - Level II
5. Attachment E - Secure Level I
6. Attachment F - Level I

LL. This policy also includes the following attachment:

1. Attachment G - MPRI In-Reach Facilities

#### PROCEDURES

MM. Wardens shall ensure that operating procedures are developed to implement requirements set forth in this policy directive. Procedures shall be completed within 60 calendar days after the effective date of this policy directive. This includes ensuring that their existing procedures are revised or rescinded, as appropriate, if inconsistent with policy requirements or no longer needed. Facility procedures shall not conflict with procedures issued by the Director.

#### AUDIT ELEMENTS

NN. A Primary Audit Elements List has been developed and is available on the Department's Document Access System to assist Wardens with self audit of this policy pursuant to PD 01.05.100 "Self Audit of Policies and Procedures".
